📍 Thane, Maharashtra | 📞 +91 86552 66449 | ✉️ arbazshaikhcsmu24@gmail.com

Professional Summary

Innovative and results-driven Full Stack Web & App Developer with proven expertise in building modern, scalable, and secure applications. Experienced in handling end-to-end development as a solo contributor, covering architecture design, coding, UI/UX design, API integrations, testing, deployment, and maintenance. Skilled in a wide range of technologies including React Native, Node.js, PHP, Python, MySQL, and MongoDB, with additional expertise in Figma, Power BI, and AI development tools.

Currently working at Saiban Infra & Saiban Capital, leading all technology initiatives and delivering production-ready solutions across real estate, finance, and gaming industries. With 3+ years of hands-on experience including academic and professional projects, I specialize in creating user-focused applications that improve efficiency, enhance user experience, and drive business growth.

Work Experience

Full Stack Web & App Developer (Solo)

Saiban Infra / Saiban Capital | June 2024 – Present | Thane

- Built and launched saibaninfra.com, a modern real estate platform, responsible for frontend, backend, hosting, and UX design.
- Developed saibancapital.com, a financial services platform featuring loan products, EMI calculators, and lead capture forms.
- Currently developing Saiban Capital Mobile Application with loan application workflows, customer dashboards, and notification system.
- Optimized websites for SEO, performance, and cross-device compatibility.
- Implemented secure form handling, data storage, and automated workflows.
- Introduced Figma-driven designs, transforming raw ideas into polished responsive interfaces.
- Leveraged AI tools to improve content generation, automation, and testing.

Key Achievements:

- Delivered two live websites independently without external team support.
- Successfully managed UI/UX design, deployment, database setup, and server hosting.
- Increased inquiry conversions by optimizing user flow and lead forms.

Application Developer Intern

Smart Byte | April 2021 – July 2021 | Thane

- Designed and developed a Student Management System application to streamline academic operations.
- Features included student profile management, course curriculum tracking, study notes, assignment submissions, and exam result publishing.
- Created role-based modules for students, teachers, and administrators, ensuring security and smooth navigation.
- Integrated dashboards for monitoring attendance, performance, and academic progress.
- Delivered a scalable, modular system that laid the foundation for future upgrades.

Key Achievements:

- Delivered a complete functional application prototype within internship duration.
- Strengthened expertise in UI design, backend logic, and database schema development.

Education

B.Tech – Computer Science (Final Year, 2023–2024)

Chhatrapati Shivaji Maharaj University

Key Projects

- **Saiban Infra Website** – Designed and deployed a full-fledged real estate platform showcasing property listings, amenities, and inquiry forms. Ensured fast performance, SEO optimization, and mobile-friendly layouts.
- **Saiban Capital Website** – Built a financial services portal with loan product pages, loan calculators, and lead forms. Developed secure backend handling and optimized customer journey for better lead generation.
- **Saiban Capital Mobile App (In Progress)** – Developing a cross-platform finance app with real-time loan application flow, push notifications, and user dashboard. Built with React Native, Node.js, and secure APIs.
- **E-Mart Games Platform – emartgames.in** – Developed a digital gaming marketplace with product listing, secure payments, and smooth checkout. Focused on performance and scalability.
- **E-commerce Website** – Built a PHP-MySQL based shopping platform with cart system, checkout flow, and admin panel for product management.
- **Movie Insights Dashboard** – Built using Python (BeautifulSoup) and Power BI, scraping IMDB data and visualizing movie ratings, genres, and release insights.

Certifications

- Software Testing** – IBM – Covered manual & automation testing methodologies.
- DevOps** – IBM – Learned CI/CD pipelines, containerization, and deployment strategies.
- Python Master** – Advanced Python programming for data and web development.
- Java & Advanced Java** – Object-oriented programming, JDBC, and enterprise applications.
